DETAILED ACTION

Allowable Subject Matter

Claims 22, 23, 31 and 32 as amended are allowed.

The following is an examiner's statement of reasons for allowance: Nowhere in the prior art is there the teaching of vibrational rollers attached to a cable to provide to the user a vibration in their muscles while exercise is being performed. The cable is connected to a pulley and handle on one end, a resistance means on the other and is sandwiched in between two rollers with spaced rubber on their outer edges to impart vibration to the cable as it translates through the rollers. Thus when a users pulls on the cable to exercise, the rollers rotate and provide a intermittent vibration to the user. Therefore, since a cable and pulley system with vibrational rollers attached to the cable is a novel concept, Applicant's claims are now directed to patentable subject matter and are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
